LIFTING INNOVATION

FEATURES

- Dual rated for goods and personnel lifting
 - Goods rated to WLL 500kg
 - Designed to exceed EN795 Class B
 - 3 person simultaneous fall arrest/ personnel positioning capability in a range of configurations*
 - Adaptable, multi purpose trolleys – goods & personnel lifting
- Rapid assembly by one person in less than a minute.
- Assembled on just 2 pins by one person (No bolts or tools required)
- Total assembled weight from just 28kg with articulated feet or castor options.
- Integral wheeled carrier for ease of transportation:
 - Folds down neatly with structure acting as its chassis & transport wheel for portability by one person
 - 2 handles also supplied for carrying by 2 people
- Highly compact for stowage and easily fits into a typical service van
- Winch options available – goods & personnel positioning (man-ride)
- Load bearing, lockable castors for easy positioning **
- Height of Lift easily adjusted with additional 200mm height available
- Different beam lengths and configurations available

* Fall arrest capability reduced when goods load simultaneously applied

** ACOP – Advises no gantry movement under load except where a “competent person” has undertaken a suitable Risk Assessment & Method Statement and deems appropriate.

A

PORTABILITY

No carrying trolley needed as structure also serves as chassis with the folding pivot point acting as the axle for the integrated wheel.

B

LOAD TROLLEY

New innovative load trolley design means additional lifting capability can be added in seconds.

C

“TRAP” PLATES

Trapezoidal plates designed for rapid deployment of the legs without tools.

D

COMPACT

Offset pivoting points allow compact folding design.

E

PROFILE

Optimally designed profiles give maximum strength with minimum weight and improved handling experience.

F

BRACKET

Innovative bracket designed for rapid attachment and removal of winch options - Incl. Personnel Positioning (Man-ride).
